Michigan Black Chamber of Commerce

Re: New International Trade Crossing

Gentlemen:

Please be advised that Laborers' Local 1191 support the construction of the New International Trade Crossing.

As Business Manager of a 3400-member construction union, this project would create much needed jobs for many of my members. The New International Trade Crossing is a great opportunity to revitalize the State of Michigan's economy which would benefit so many Michiganders.

I support your Resolution and urge the Detroit Delegation and all other parties who want the best for the citizens of Michigan to do so as well.

Sincerely,

LABORERS' LOCAL UNION 1191

Michael Aaron
