

France

While it appreciates oral and written responses to questions relating to the situation of travelers, The Foundation remains concerned at delays in the effective support, reception and housing of travelers and the persistent difficulties travelers encounter in such fields as education, employment and access to the social security and health system.

The Black Caucus Foundation supports an end to discrimination against Roma and recommends that it should step up its efforts to provide travelers with more parking areas equipped with the necessary facilities and infrastructures and located in clean environments, intensify its efforts in the field of education and combat the phenomena of exclusion of travelers more effectively, including in the fields of employment and access to health services.
