

Lebanon

While acknowledging the political factors related to the presence of Palestinian refugees in Lebanon, The Foundation reiterates its concern with regard to the enjoyment by the Palestinian population present in the country of all rights on the basis of non-discrimination, in particular access to work, health care, housing and social services as well as the right to effective legal remedies. The Black Caucus Foundation urges the enactment of measures to ameliorate the situation of Palestinian refugees with regard to the enjoyment of the rights, and at a minimum to remove all legislative provisions and change policies that have a discriminatory effect on the Palestinian population in comparison with other noncitizens.
